Please join us for a review and update of polycentricity research at the Ostrom Workshop and elsewhere. The discussion will include:

- a brief summary of the Working Group’s beginnings and first two meetings during 2019-2020;
- a look at the polycentricity website, now hosted by the International Association for the Study of the Commons;
- some comments on recent and current developments in polycentricity research; and
- a brief presentation of a current research project by Hannes Goegle on polycentricity and global public health.

We look forward to your questions and suggestions, and a good discussion.

The Polycentricity Working Group welcomes any and all students and scholars who are either research active, or are interested in learning more about polycentric governance.
