

CYBERSECURITY AND INFORMATION GOVERNANCE Reading Group

Cookies and Hard Problems

WEDNESDAY, MARCH 7, 2018

4:00 PM

OSTROM WORKSHOP, 513 N. PARK

This inaugural reading group session will focus on “[Making Democracy Harder to Hack](#),” led by Professor Scott Shackelford. In advance of the session, please read the following: (1) “[Opinion: How to make democracy harder to hack](#),” *Christian Science Monitor*, July 29, 2016; and (2) “[Bipartisan group of lawmakers backs new election security bill](#),” *The Hill*, December 21, 2017.

Faculty and students interested in cybersecurity and/or information governance are welcome to join in this informal gathering.

Scott Shackelford is business law and ethics professor at IU’s Kelley School of Business; Cybersecurity Program Chair; and Director, Ostrom Workshop Program on Cybersecurity and Internet Governance.

The second reading group session, “[Is it Time to Care Who Has Your Data?](#),” will take place on [April 3 at 4:00 p.m.](#), led by Professor Angie Raymond (Business Law and Ethics, IU Kelley School of Business; and Director, Ostrom Workshop Program on Data Management and Information Governance).

Coffee and cookies will be served. For questions, contact Scott Shackelford (sjshacke@indiana.edu).
