

# DATA MANAGEMENT AND INFORMATION GOVERNANCE LUNCHEON NETWORKING SERIES

## Program on Data Management and Information Governance

---

### ANGIE RAYMOND

PROGRAM DIRECTOR; PROFESSOR OF BUSINESS  
LAW AND ETHICS, IU BLOOMINGTON

**NOVEMBER 14, 2017**

**12:00–2:00 PM**

**OSTROM WORKSHOP, 513 N. PARK**

The Program on Data Management and Information Governance was founded in November of 2017 to foster a collaborative, multidisciplinary, multisector, multistakeholder environment in which scholars, policymakers, and industry professionals can work together to translate research findings into effective policy.

To that end, the program is proud to announce the first luncheon networking event focusing on data management. The event is designed to be a networking event, where individuals with an interest in data management can gather to share stories and network solutions.

The second luncheon series has been tentatively scheduled for January 23, 2018, from 12:00–2:00 p.m. and will focus on the topic “Who Owns the Data?,” by Beth Cate.

*LUNCH PROVIDED: please RSVP to David Price ([daaprice@indiana.edu](mailto:daaprice@indiana.edu)) by November 10. This series is open to the public. For questions, contact Angie Raymond ([angraymo@indiana.edu](mailto:angraymo@indiana.edu)).*
